

ASCHEM GPPS General Purpose Polystyrene (Crystalline)

GPPS 585

Description

General purpose polystyrene GPPS 585 is a crystal like, hard and brittle polymer with high molecular weight which imparts high tensile strength to end products. It is developed for production of strong and tough extruded foam applications.

Applications

It is recommended for extrusion used in the manufacture of egg cartons and for insulation boards. For biscuits and cake trays that require low odor. In other oriented polystyrene packaging products.
